

“Would you like to contribute to the financial side of our production environment? Then this position is for you!”

Job description

Plant Controller – Italy

Keywords:

Industry: animal health / **Segment:** livestock vaccines and diagnostics / **Location:** Chignolo Po (PV), Italy / **Contract:** Permanent contract, Full Time, Possibility of working from home (1-2 days/week)

About Vaxxinoa

The Vaxxinoa Group, headquartered in Nijmegen, the Netherlands, was officially named and founded in 2010 but can rely on expertise and presence originating from the 1960s. Our current network comprises production, research & development, sales, and diagnostic facilities in 10 countries: Brazil, Chile, Germany, Italy, Japan, Jordan, Norway, the Netherlands, Thailand, and the USA. Vaxxinoa is active in more than 75 countries.

Vaxxinoa aims at providing a full range of both autogenous and licensed vaccines combined with high-level diagnostic services, supported by strong R&D. Our focus is on livestock including poultry, aqua, cattle and swine.

Our production facility in Chignolo Po, Italy focuses on the development and production of poultry and aqua vaccines to support the European, African, and Asian markets.

Vaxxinoa is part of the family-owned EW Group, which operates in over 100 countries in the field of 'Life Sciences'; genetics, diagnostics and healthcare sectors.

About the role

In this role, you will dive into the world of production and finance. You will support the control of sales and production processes, supervise the financial processes within the plant and help prepare the statutory financial statements and periodic reports. You will also work closely with the IT manager for the development of our IT systems.

The ideal opportunity to master the whole spectrum of the plant controller function with challenging growth opportunities over time within the organisation

Main responsibilities

- Drafting of internal reports for cost control;
- Support in drafting the Company budget;
- Periodic updating of the costing model for production and business lines;
- Monthly analysis of variations between final cost and standard cost for products in stock;
- Analysis of production margins, CoC expenses, CapEx, productivity, processing times by investigating and explaining the variations compared to the budget and the previous year;
- Active support in the evaluation of CapEx projects;
- Evaluation and verification of the internal control of the production site;
- Support management with physical warehouse inventory;
- Support IT Manager with the resolution of problems relating to information systems;
- Coordinate training for business users;
- Involvement in future ERP implementation.

Qualifications

- Bachelor's degree in Economics and Business or Management Engineering;
- At least 2-3 years of experience; experience in pharmaceutical sector is a plus;
- Analytical and problem solving skills;
- Knowledge of (the main) IT applications;
- Team player with a flexible mindset and can-do mentality;
- Training skills;
- Excellent Italian and English proficiency both written and spoken.

What does Vaxxinoa offer you?

Working at Vaxxinoa means working in an open and professional environment where we value respect, open communication, and integrity.

You will work in a pleasant team of professionals in an informal environment.

Besides a good salary, Vaxxinoa has excellent fringe benefits, and we foster continuous development and learning. Potential growth opportunities to a leading position.

Vaxxinoa empowers her employees at every level to take ownership of their work to achieve our common goal: the realisation of our R&D portfolio.

Organisation

- This position reports to the Company Finance Director
- Located in Chignolo Po (PV), Italy
